

THE BRILLIANCE OF BLENDED

Keeping your Team Competent

Online Assessor Training and Qualifications

We can ensure your assessors understand what is expected of them as assessors and how to assess effectively. This helps create assessors who are more committed to the task, and know how to assess, leading to an increase in the number of assessments completed to the required standard.

We offer three main options relating to Assessor Training and Certification online:

- **SQA L&D9D/9DI Assessor Qualification**
- **Training with a Knowledge Assignment**
- **Training with a Practical Assessment (Certificate of Competence)**

Online Internal Verifier Training and Qualifications

We want your verifiers to not only complete their training and qualification but also understand what is expected of them in their role, how to use your company's assessment paperwork and assessment process, and how to be effective internal verifiers.

We can help you with introductory training for your internal verifiers through to full qualifications online:

- **SQA L&D11 Verifier Qualification**
- **Training with a Knowledge Assignment**
- **Training with a Practical Assessment (Certificate of Competence)**

Strategic Decisions and Solutions in Training and Competence

For over 20 years we have helped organisations develop, implement or improve their competency management systems.

We offer a range of services to align with your needs including competency management system health checks, development of competency management systems, streamlining/revisting existing competency management systems, helping clients go online and integrating training and competency.

Bringing our understanding of risk management to the areas of training and competency , we can help you achieve a more integrated approach to training and competency.

PLEASE TURN OVER...

Online Leadership and Management Development Training and Qualifications

We offer a range of practical training and qualifications that help team leaders, supervisors and managers develop the skills and knowledge to succeed.

We can help you with introductory training modules such as Communication and Leading Change, through to endorsed awards and qualifications from ILM. We can tailor our courses to your requirements through online and blended learning and each learner is allocated a Polaris Learning consultant who works closely with the learner.

Whether you have one person or hundreds to train, we can help.

“I would definitely recommend their services as I consider Polaris Learning to be an extremely professional company but very friendly. The services they offer are great and it is reassuring that somebody is always there to pick up the phone and answer queries, and they provide competitive rates.”
